OSMO

EMULSIFIER

OSMO PRE-HS (Emulsifier)

Elevate your laundry routine with our advanced liquid emulsifier, designed to enhance the performance of your detergent, this emulsifier ensures thorough mixing of water and oils for superior cleaning results.

- Excellent performance on fatty and oily soil
- Good foam control properties - optimal use of washer mechanical action.
- Helps maintain the colour of materials soiled by oils, & thus prolongs material life.
- The product is specially formulated for use in commercial and on premise laundries
- Suitable for cotton, microfibre, viscose, polyester, polyamide, polypropylene

pH - 7.5 | Pack Size - 5L Can

OSMO PRE (Emulsifier)

An effective booster based on blend of non-ionic surfactant, designed to enhance the effectiveness of detergents, it ensures thorough penetration and removal of tough stains.

- Excellent performance of fatty and oily soil with mechanical action.
- Good foam control properties.
- Suitable for use of pastel coloured fabrics.
- Improve dispersion of fatty and oily soil.
- Enhance wash performance on heavily soiled fabric such as cotton, polyester, cotton workwear and table linen.

pH - 7.5 | Pack size - 5L Can

OSMO PREMIUM (Liquid Emulsifier)

A cutting-edge addition to your laundry routine, formulated to enhance the effectiveness of your detergent, it ensures superior stain removal and fabric care. Experience a new level of cleanliness and freshness with our advanced liquid emulsifier.

- A concentrated liquid surfactant booster based on blend of surfactant.
- Specially formulated for use in commercial and on premises laundry.
- Suitable for cotton, microfibre, viscose, polyester, polyamide, polypropylene.
- Dosing level is dependent wash classification.

pH - 7.5 | Pack Size - 30L Can

OSMO EMUL TW (Tunnel Washer Emulsifier)

A breakthrough in laundry care, specially used for tunnel washers, this emulsifier ensures optimal cleaning performance, effortlessly removing stains and preserving fabric integrity.

- A concentrated liquid surfactant booster based on blend of nonionic surfactants.
- Excellent performance of fatty and oily soil, edible oil, spa oil etc.
- Effective dispersion property hence preventing redeposition.
- Mainly used in conjunction with alkalinity boosters/mainwash detergents.
- Used in combination of latter, emulsifies and improves dispersion of fatty and oily soil, thus enhancing wash performance on heavily soiled fabric such as cotton, polyester, cotton workwear and table linen.
- Absence of Optical brightener, thus suitable for use of pastel coloured fabrics.

pH - 7 | Pack size - 30L Can
